

ST 538 Group 4 Project 2

Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

Running Code

When you click the **Render** button a document will be generated that includes both content and the output of embedded code. You can embed code like this:

Based on this output, we could easily modify the CHR strings (CREDIT_HISTORY_LENGTH, AVERAGE_ACCT_AGE, PERFORM_CNS_SCORE_DESCRIPTION, DISBURSAL_DATE, EMPLOYMENT_TYPE, DATE_OF_BIRTH) to categorical/ordinal/numeric variables if needed.

```
# load dependencies
library(tidyverse)
```

for all the 2nd account holder variables, could just concatenate into a 2nd account holder
yes/no?

there are a few that could need to be ranked, IE performance score description, or take their
performance score and bin it..
